WebpageFX
ATTN: Director of Human Resources
1705 N. Front Street
Harrisburg, PA 17102

Dear Director of Human Resources,

I hope it is not too forward to say that I can already see myself working at WebpageFX. I am excited to see an amazing opportunity to work in an atmosphere cultivated for success and passion open up at an award-winning company such as yours. I feel my values and personality fit well, and with a passion and curiosity for web development and all things beautiful, I believe these qualities will help me excel as a junior web developer on your web development team.

I graduated with a B.S. in Information Sciences and Technology from Penn State Harrisburg in 2014, focusing on the role of design in developing beautiful and intuitive web interfaces. Although my skills are coding responsive websites with HTML5, CSS3, frameworks such as Bootstrap and Skeleton, wireframes, and Photoshop, I have some familiarity working with and have an interest in improving my understanding of JavaScript/jQuery, SASS, PHP, Rails on Ruby, and the numerous emerging technologies that go hand-in-hand in creating innovative web interfaces.

With a limitless love and passion for learning and a diverse set of skills, I believe that I would be a wonderful asset to your company. If given the opportunity to work at WebpageFX, I would make the most of every opportunity to grow with the company.

Best wishes,

Sabrina Hanapiah
